

## Who Are We

Since 2013, CloudCharge has been shaping the future of EV charging. Today, we are one of Europe's leading platforms for managing charging infrastructure. Our customers operate networks of charging points spanning private properties, housing cooperatives and public parking facilities. With support for OCPP 1.5, 1.6, and 2.0.1, we offer full compatibility and flexibility - regardless of the chargers used.

## What We Do

We specialize in providing a CSMS (Charging Station Management System) solution. Think of us as the brain behind the seamless charging of electric vehicles. Our state-of-the-art system ensures that EV charging stations work in perfect harmony, delivering efficient power whenever and wherever it's needed. With CloudCharge, you manage the charging, on your terms.

## Our Solutions

1

### Housing Cooperatives

Optimize your property for residents with EVs. Simple and user friendly solution for greener tomorrow.

2

### Workplaces & Offices

Give your employees the opportunity to charge their EVs at work. With flexible pricing you can choose whether to charge, subsidize or break even.

3

### Hotels & Commercial Properties

For businesses aiming to offer customers added luxury, our solutions seamlessly integrate into property infrastructures, ensuring simple and reliable EV charging.

4

### Public Parking

From malls to city centers, we transform parking spaces into modern charging stations, enhancing convenience for EV drivers.

### CloudCharge Go

With CloudCharge Go, users can charge without downloading an app or creating an account. Just scan, pay, and charge - directly in the browser.

**No app. No account. Just charge.**

## Key Features

- 1. Access Management:** Give and remove charging access - smoothly and efficiently.
- 2. Flexible Pricing:** Take control of the finances by setting the price for electricity consumption yourself.
- 3. Payment Management:** With our solution, your revenue flow becomes both simpler and more secure.
- 4. Charger Monitoring:** Keep track of your charging infrastructure easily and efficiently.
- 5. Clear Reports:** With CloudCharge, both owners and users can easily track and report their charging usage directly in the Portal and App.
- 6. Charge with or without an app:** CloudCharge Go allows users to charge also without app or user account. Payment without identification directly in the browser.

## Charging, on your terms

Easy onboarding and automated operations make your work as facility administrator easy and simple. With CloudCharge solution you have full control of your chargers, users and revenues.

No matter the size of your facility or what your needs are, we are here to help you.
